Let's get on with the settlement. Microsoft has bent over backwards to settle and yet only the lawyers are getting rich. I have been a user of Microsoft and believe will keep serving the best interests of the consumer as they have for years. So the competition can't keep up...so what!!!!!! Microsoft has long since complied with the long list of government regulations. If the government ran its business as well as Microsoft we would have a fraction of the taxes, graft, laws, etc
